PART OF THE SHEPPARD PRATT HEALTH SYSTEM

Family Discovery Center offers a multi-generational program to promote adult learning and healthy child development in families with children up to age 4. Part of a network of Family Support Centers in Maryland, the FDC offers ESOL classes, as well as parenting, career development and health workshops to promote self-sufficiency. Children attend a child development class where they learn school readiness skills. FDC also offers home visiting services for parents seeking help with difficult parenting issues.
